

Report on ICANN Activity for April 2015

At-Large Ad-Hoc WG on the Transition of US Government Stewardship of the IANA Function

- Discussion of the Names Community Proposal and At-Large's response to it.
 - A draft of the names proposal is now available for comment
 - A proposal page has been provided, along with a template for comments:
 - <https://community.icann.org/x/XConAw>
- After some rather pointed hints that they should get some competent legal advice, the working group brought in a corporate law firm and their advice sorted out the alternatives.
- The comment period for this draft ends on May 20. There is still a plan to submit the Names proposal to the Coordination Group in June. The entire schedule is compressed for this, which is leading to some interesting results.
