

Report on ICANN Activity for June 18,2018

ATLAS III

There has been no announced decision on this as yet. An examination of the budget does not indicate any expectation of planning for this event, either..

WHOIS/"Registrant Data System" Policy Development Process

Since the last written report, ICANN Staff crafted a "Temporary Policy" to address the GDPR. In the meantime, one of the Registrars (Tucows) developed and implemented a regimen that protects "WHOIS Data" as required by the GDPR.

ICANN tested this policy in court in Germany, partly to test its own "Temporary Policy". The results of that exercise were that the Tucows RDS is largely compliant and the ICANN "Temporary Policy" needs work.

There will be a session to present and discuss this at the next ICANN meeting in Panama on the 24th of this month. This will possibly end with a decision to either re-start the PDP Work Group or just terminate it.

DNSSEC KSK Rollover Postponement

This is still scheduled to take place next October 11.

NARALO

Election Results: For NARALO, Eduardo Diaz is still the Chairman, Glenn McKnight is still the secretary.

For ALAC, Alan Greenberg will step down as Chairman at the end of the next AGM. NARALO has elected Marita Moll as its representative to ALAC.

ICANN Meetings Generally

ICANN meetings have returned to Adobe Connect. ICANN Staff assures us that ZOOM will be considered as an alternative, especially given the bandwidth issues faced by some key members.

For At-Large generally, there is a lot of discussion of metrics to measure the activity levels of At-Large member organizations, as well as participants in other ICANN programs, such as fellowships.
